Weblink

- ✓ **3C-STORAGE products have increased compared to the same period last year. Computer components - card products have shown growth compared to the same period last year.**

- ✓ The launch of Nintendo's new console in July significantly boosted performance.

- ✓ Driven by the demand for energy efficiency and health, the overall performance of home appliance products has increased compared to last year.

# Weblink Q4'25 Business Momentum

**Hot sales of Double 11 and Double 12 events.**

**New launch of Nintendo's Switch 2 has driven hot sales of gaming products.**

**The wave of AI applications has driven related business opportunities.**

**Innovative integrated marketing helps manufacturers communicate with the end market.**

**The flexibility of storage devices from Samsung, WD, and SanDisk.**

# Weblink's Prospect in 2026

**Overall strategies focus on "multiple brands," "innovative services," "digital transformation," and "deep market development" to respond to industry changes and seize new business opportunities.**

- ◆ Sales of software dedicated to the Nintendo Switch 2 will become a major driver of revenue, with stable expansion expected in 2026.
- ◆ Original manufacturers of home appliance products are enhancing brand image, improving cost-effectiveness, and launching differentiated features to attract consumers.
- ◆ The development of electronic components distribution channels is progressing well, expanding sales opportunities in electronic components.
- ◆ Value-added AI services such as Microsoft Copilot and Adobe API services continue to be updated and optimized.
- ◆ There are replacement opportunities for AI PCs and commercial notebooks.
